

# Have you heard about Richmond Council's consultation on its Village Plan for Strawberry Hill?

Tell the council what YOU want to preserve about Strawberry Hill!

- The purpose of the Village Plan is to define the character, composition and environment of the village, so that future development can be judged on whether it conforms to the existing characteristics of the area.
- The Village Plan is a template that future planning applications and planning guidance documents will be judged against.
- We need to get the Village Plan right so that it accurately reflects the characteristics of Strawberry Hill. This will help to prevent overdevelopment, such as St Mary's University's proposed MasterPlan.

The Council has prepared a draft Village Plan for Strawberry Hill.

There will be a six week consultation period, after which they will revise the plan before producing the final version. **Key dates:**

**June 16: Consultation Opens**

**June 24: Drop-In Session With Council Officers 13:30 – 17:30 (Strawberry Hill Golf Club)**

**July 28: Consultation Closes**

## What You Can Do:

- Look at the Strawberry Hill Village Plan on the Council's website:  
[www.richmond.gov.uk/strawberry\\_hill\\_area\\_village\\_plan](http://www.richmond.gov.uk/strawberry_hill_area_village_plan)
- Come to the drop-in session at the golf club on June 24 to see the plans, speak to council officers in person, and have your say.
- Comment in writing, (using the online form or by post) **before July 28.**

We at Neighbours of St Mary's University want to see Richmond Council define Strawberry Hill as a residential neighbourhood of **FAMILY HOMES**, surrounded by precious **GREEN SPACE**. If our area is accurately and specifically defined in that way it will make it harder to build on our open spaces. Please consider making these points to Richmond Council if you agree with us!

This leaflet was produced by Neighbours of St Mary's University, a group of concerned residents of Strawberry Hill and Teddington. **Join us at [www.neighboursofstmarysuniversity.com](http://www.neighboursofstmarysuniversity.com)**
